ABOUT THE PATTERN:

This pattern is knit in the round from the top down, starting with the ribbing around the neck of the bottle then adding in eyelets for the ribbon closure and a series of increases for the main section of the cover. Finally a three needle bind off is used for a neat seam at the base.

The pattern is courtesy of the very generous Christiana and is adapted for working in the round. You can see a variety of Christiana's versions in the Gallery section of our website -
